ISU Manifesto for Office Director Position

Name of Applicant: Al- Aswadi Abdulhakim 哈金

Position: Office Director- ISU 2025-2026

For all our beloved international students who leave their warm homes, cultures, and self-comfort, only and only to fly with dreams, to pursue their goals, and desires by studying abroad. Our respected ISU should be more than an organization—it should be a home, a voice, and a bridge that lead for success. As Office Director, my vision is to create an ISU that is organized, responsive, and deeply connected to the needs of every international student at Huzhou University.

Mission:

First goal, and mission I am gratefully committed to is to strengthen the foundations of our esteemed committee in the field of professionalism, clear communication, transparency, and more importantly, compassionate and responsible leadership. I aim to ensure that every meeting has purpose, every announcement has impact, every student feels supported, and every concern is heard and represented.

What We Stand For:

1. Purposeful Meetings, Stronger Decisions:

Meetings are mainly where ideas are shaped, futures are planned. My goal in the field of meetings and decision making is to ensure:

- Well-structured, timely, and goal-oriented
- Supported by clear agendas and accurate records
- Followed by action, not just discussion

By ensuring these objectives, the impact obtained will be clearly seen in a stronger ISU that turns ideas into real outcomes all students in all fields needed to ensure a better environment for our beloved students.

2. Inspiring Communication & Engaging Announcements:

To clearly state the message of diversity, and freedom, events and activities bring our community together. We will mainly concentrate on:

- Design visually engaging, clear, and professional announcements
- Ensure timely and inclusive communication across all platforms
- Promote activities that celebrate diversity, culture, and unity

The impact of accomplishing the objectives above is having a higher participation, stronger community bonds, and a more vibrant international student life.

3. A Support System Students Can Trust:

As we believe, behind each number of a student is a story, and based on how important these stories are, we will:

- Maintain organized and confidential student records for assistance
- Ensure concerns and requests are handled with care and respect
- Help students navigate challenges by connecting them with the right support

Ensuring safety and assistance on time for all students will be guaranteed, making the ISU a place where students feel safe, valued, and never left behind under any circumstances.

4. A Strong Bridge Between Students and the University:

Solid representation of students is needed to ensure transparency, and trustworthiness. For that, I am committed to:

- Actively participating in ISU decision-making
- Clearly communicating student voices to the International Office
- Strengthening cooperation between students, ISU leadership, and university administration

Trust, transparency, and meaningful collaboration across all levels will be the output of applying the objectives for a better future for us.

Why me?

I believe true leadership is not defined by titles or authority, but by service, responsibility, and impact. It is about showing up consistently, listening with empathy, and acting with purpose. With strong organizational skills, deep cultural awareness, and a genuine passion for advocating for international students, I am fully prepared to serve with dedication, accountability, and integrity.

I am committed to listening before acting, so every voice is valued; organizing before executing, so every plan is purposeful; and uniting before leading, so our strength comes from collaboration and shared vision. Through service-driven leadership, I aim to create an ISU that not only represents students—but empowers them.
